

Pseudo-Riemannian Geometry and Invariants in General Relativity

University of Stavanger : May 30 – June 3, 2022

Invited speakers

- José Figueroa-O'Farrill (Edinburgh)
- Jorge Lauret (Córdoba)
- Jerzy Lewandowski (Warsaw)
- Vladimir Matveev (Jena)
- Karin H. Melnick (Maryland)
- Paweł Nurowski (Warsaw)
- Alena Pravdová (Prague)
- Eduardo García-Río (Santiago de Compostela)
- Thomas Leistner (Adelaide)
- James Lucietti (Edinburgh)
- Robert Milson (Halifax)
- Marcello Ortogio (Prague)
- Vojtěch Pravda (Prague)
- Arman Taghavi-Chabert (Warsaw)

Organizers: Sigbjørn Hervik, Boris Kruglikov, Matthew Terje Aadne, Eivind Schneider

The conference is supported by the NFR-Toppforsk project "Pseudo-Riemannian geometry and polynomial curvature invariants" (UiS) and the TMS-TFS project "Pure Mathematics in Norway" (UiT)
